RECORD-LOW NUMBER OF STTPA PROJECTS IN THE LATEST CEF CALL

In the last selection of transport infrastructure projects funded by the EU, only 4 out of 107 projects are dedicated to the construction or improvement of Safe and Secure Truck Parking Areas (SSTPAs), amounting to over €12 million. This is a very disappointing result which must be resolved for the next calls for funding.

ITF REPORT ON DECARBONISATION AND THE PRICING OF ROAD TRANSPORT

On 23 June, the International Transport Forum published a study on the need for reforming vehicle and road use taxes due to the shift to electric vehicles (EVs) and improved fuel efficiency of internal combustion engine (ICE) vehicles, which will reduce revenues from fuel taxes. The study suggests potential tax and charge packages that can generate revenue efficiently and maintain incentives for a sustainable transport system.

IMO COUNTRIES FAR FROM AN AGREEMENT ON NEW CLIMATE TARGETS

Delegates of member countries of the International Maritime Organisation (IMO) met this week in London to prepare for next week's Environment Committee meeting (MEPC 80) which is expected to adopt new climate targets for the shipping industry. Progress is difficult as member countries are still divided over the ambition to reach at global level.
